

School Information

Fisher More is conveniently situated at the end of the M65 in the picturesque setting of Pendle Hill and the surrounding countryside in East Lancashire. Nearly every classroom in the school has an amazing view of the charming rural landscape that surrounds the school.

It is an extremely friendly, warm and welcoming community; a community in which everyone is actively encouraged to “let all their bright colours shine”. This manifests itself in the nurturing of the gifts and talents which are present in all members of the community. It is a very good place to work; it is a very good place to study.

Year on year we are a highly over-subscribed school, receiving many more applications than we have places. This results from our excellent reputation in the local area for our high expectations (behaviour, attendance, punctuality) coupled with all our achievements and successes. We consistently out-perform our neighbouring schools with results of which we are rightly extremely proud, and which are a testament to everyone’s hard work and commitment.

We have an extensive and enviable range of extra-curricular opportunities, both in school and the local community. We have fostered and developed very productive relationships with our partner primaries, local high schools and colleges and parishes. As a result of their successes, all our pupils go on towards apprenticeships or college/further study.

The school itself has a full size 3G AstroTurf pitch available for use by both the school and teams from the local community and later this year will have a newly refurbished and extended Learning Resource Centre and changing facilities in PE.

Our commitment to inclusivity, respect, forgiveness and ‘family’ ensures all members of the school community, whether adult or child, have a true sense of value and worth.

There is a commitment from all staff to ‘go the extra mile’. As a school we are rightly proud of all we have achieved on our improvement journey together. We are always looking at ways to grow and develop further and welcome anyone who can contribute to that by enriching our community through “letting all their bright colours shine” with us.
