

SS John Fisher and Thomas More RC High School, Risk Assessment – COVID-19

PART A. ASSESSMENT DETAILS:

Area/task/activity: Full School opening arrangements during COVID-19 restrictions from 1 September 2020

Location of activity: SS John Fisher and Thomas More RC High School

Team/School name: Address & Contact details:	SS John Fisher and Thomas More RC High School	Name of Person(s) undertaking Assessment:	Mr P Trickett
		Signature(s):	
Line Manager/ Headteacher (Name/Title):	Ms C Hayes	Date of Assessment: Reviewed:	20.08.2020 13.10.2020 10.11.2020
Signature:		Planned Review Date:	11.12.2020
How communicated to staff:	Email	Date communicated to staff:	10.11.2020

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
Changes to official COVID-19 guidance and advice	Staff, pupils, visitors, contractors, parents	Potential spread of infectious disease	<ul style="list-style-type: none"> • School regularly refers to official advice from the DfE, PHE, HS&Q and HR; <ul style="list-style-type: none"> ○ Coronavirus (Covid-19): guidance for schools and other educational settings ○ LCC Schools HR guidance ○ LCC Health & Safety COVID-19 web page • Headteacher or other senior person keeps up to date with official COVID-19 Guidance and informs employees/school arrangements as required.

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

<p>List of significant hazards (something with the potential to cause harm)</p>	<p>Who might be harmed</p>	<p>Type of harm</p>	<p>Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)</p>
<p>Vulnerable & extremely vulnerable staff or pupils with pre-existing health conditions</p>	<p>Staff, pupils, household members</p>	<p>Becoming seriously ill from the effects of coronavirus, potential to be life threatening</p>	<ul style="list-style-type: none"> • Adults who were considered to be clinically extremely vulnerable and received a letter advising them to shield are/were advised by the Government that they can/could return to work from 1 August 2020 as long as they maintain social distancing; • Pupils who were considered to be clinically extremely vulnerable and received a letter advising them to shield are/were advised by the Government that they can/could return to school from 1 August 2020 (or when the rest of their class returns); • If infection rates rise in local areas, individuals (or family members) from that area, and that area only, will be advised to shield during the period where rates remain high and therefore may be temporarily absent (i.e. if area moves to Tier 3, as per Government announcement 12/10/20) • Some pupils no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school. The school works closely with parents of children who are extremely vulnerable to support a return to school, carrying out an individual risk assessment as necessary and coming under the care of our person looking after pupils with Health Care plans; • School applies the measures set out in the government Guidance for full opening: schools as far as is reasonably practicable to reduce the risk to all staff including those who are extremely clinically vulnerable and clinically vulnerable; • Staff members who are in the most at-risk categories are reminded to take particular care. Where an employee expresses concerns, An individual risk assessment will be completed to assess the risks to that individual and identify ways to reduce these. This will be done in consultation with the member of staff and will be reviewed on a regular basis or in the event of any significant changes;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • People who live with those who are clinically extremely vulnerable or clinically vulnerable attend the workplace as normal; • Some people with particular characteristics may be at comparatively increased risk from coronavirus (COVID-19), as set out in the COVID-19: review of disparities in risks and outcomes report. If people with significant risk factors express concerns an individual risk assessment will be completed to assess the risks to that individual and identify ways to reduce them to an acceptable level; • People who live with those who have comparatively increased risk from coronavirus (COVID-19) attend the workplace as normal; • Advice for those who are extremely clinically vulnerable can be found in the guidance on shielding and protecting people who are clinically extremely vulnerable from COVID-19.
Staff, pupils & household members displaying signs of COVID-19	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • Staff, parents and pupils are made aware of the virus symptoms; • Staff, other adults and pupils are instructed not to come into school if they or members of their household have coronavirus (COVID-19) symptoms, in-line with the guidance for households with possible coronavirus infection; • Staff or pupils showing COVID-19 symptoms are sent home, instructed to arrange a test and reminded to self-isolate for 10 days from date of onset of symptoms (or from the date of the test if asymptomatic) if the test is positive for COVID-19; • Staff and parents are advised that other members of their household (including any siblings) should self-isolate for 14 days from date of onset of symptoms (or from positive test date if asymptomatic); • Staff and parents have been instructed to inform school immediately of the results of a test so that an assessment can be made of the potential impact on school (adviseus@fishermore.lancs.sch.uk);

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • If someone tests negative, if they feel well and no longer have any symptoms similar to those identified for coronavirus (COVID-19), they can stop self-isolating. They may still have another virus, such as a cold or flu, therefore it is still advisable to avoid contact with others until they recover. However other members of their household can stop self-isolating; • Staff who have assisted someone who has taken ill with COVID-19 symptoms and any pupils who have been in close contact with them, will wash their hands with warm, running water and soap for a minimum of 20 seconds. They do not need to go home unless they display the symptoms themselves or are advised to do so by NHS Test and Trace or Local Health Protection Team; • If a pupil displays symptoms their parent/carer will be required to take them home. Where this is not immediately possible, the pupil will be placed in the Nurture Room or Chapel space until they can be collected, whilst being mindful of the individual pupils' needs; • Ideally, a window and/or door will be opened in the room for increased ventilation; • If it is not possible to isolate the pupil e.g. if it causes them undue distress or they need to remain under adult observation, an assessment will be carried out to see whether it is sufficient to move them to an area which is at least 2 metres away from others; • If an individual (adult or child) showing COVID-19 symptoms, needs to use the bathroom while waiting to go home, they will use a separate bathroom if possible. The bathroom will then be cleaned and disinfected before being used by anyone else; • The area around the person with symptoms will be cleaned appropriately after they have left to reduce the risk of passing the infection on to other people as per the COVID-19: cleaning of non-healthcare settings guidance; • When caring for someone with symptoms of coronavirus (COVID-19) a face mask should be worn if a distance of 2 metres cannot be maintained. If

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:			
List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>direct contact is necessary, then gloves, an apron and a face mask should be worn;</p> <ul style="list-style-type: none"> • If a risk assessment determines that there is a risk of splashing to the eyes, e.g. from coughing, spitting, or vomiting, then eye protection will also be worn by the supervising adult.
Staff, pupils & household members test positive for COVID-19	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • If someone tests positive, they are instructed to follow the ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’ self-isolating for at least 10 days from the onset of their symptoms or positive test date if asymptomatic and will only be allowed to return to school when they no longer have a high temperature. They may return even if they still have a cough or a loss of sense of taste and/or smell. They will be advised that other members of their household must continue self-isolating for the full 14 days; • The School will contact the local health protection team as soon as they have been notified of a positive result. (This team may also contact schools directly if they become aware that someone who has tested positive for coronavirus (COVID-19) attended the school – as identified by NHS Test and Trace); • The health protection team will carry out a rapid risk assessment to confirm who has been in direct close contact with the person during the period that they were infectious, and ensure they are asked to self-isolate; <ul style="list-style-type: none"> ➤ Direct close contact – ➤ face to face contact with an infected individual for a length of time, within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin); ➤ proximity contacts - extended close contact (within 1 to 2 metres for more than 15 minutes) with an infected individual; ➤ travelling in a small vehicle, i.e. a car, with an infected person;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • School will keep a record of pupils and staff in each group (bubble) and any close contact that takes places between children and staff in different groups. School will not share the names or details of people with coronavirus (COVID-19) unless essential to protect others; • Household members of those contacts who are sent home do not need to self-isolate themselves unless the pupil or staff member who is self-isolating subsequently develops symptoms; • If someone in a class or group that has been asked to self-isolate develops symptoms themselves within their 14-day isolation period they are instructed to follow the ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’ and advised to get a test; • If the test result is positive, they must inform school immediately, and must isolate for at least 10 days from the onset of their symptoms (which could mean the self-isolation ends before or after the original 14-day isolation period); • They are advised that their household should self-isolate for at least 14 days from when the symptomatic person first had symptoms.
Outbreak of Covid-19 within school	Staff, pupils, visitors, contractors, household members	Spread of infectious disease	<ul style="list-style-type: none"> • The school will work closely with the local health protection team if there are two or more confirmed cases within 14 days, or there is an overall rise in sickness absence where coronavirus (COVID-19) is suspected. The local health protection team will advise if additional action is required; • School is aware that in consultation with the local Director of Public Health, where an outbreak in a school is confirmed, a mobile testing unit may be dispatched to test others who may have been in contact with the person who has tested positive. Testing will first focus on the person’s class, followed by their year group, then the whole school if necessary, in line with routine public health outbreak control practice.

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

<p>List of significant hazards (something with the potential to cause harm)</p>	<p>Who might be harmed</p>	<p>Type of harm</p>	<p>Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)</p>
<p>Transmission of Covid-19 due to lack of consultation on safe working practices and provision of information & instruction on safe ways of working.</p>	<p>Staff, pupils, visitors, contractors, parents</p>	<p>Spread of infectious disease</p>	<ul style="list-style-type: none"> • Guidance and training is provided for staff to ensure they understand, and can enforce, the new routines and support pupils in understanding them and are familiar with revised physical arrangements; • SLT are available to offer support and advice and to monitor the current working arrangements on a daily basis; • All new staff and volunteers are provided with a site induction and adequate information, instruction and training on local health, safety and COVID secure arrangements and their key roles and responsibilities; • Signage, posters and other instructions are displayed to support implementation of COVID secure measures; • Up to date information and guidance on how to manage the risks associated with COVID -19 are available on the Health & Safety Website.
<p>Spread of Covid-19 during travel to and from school on dedicated transport</p>	<p>Staff, pupils, household members, members of the public</p>	<p>Potential spread of infectious disease Pupils stranded or missing</p>	<ul style="list-style-type: none"> • Pupils on dedicated school services do not mix with the general public on those journeys and tend to be consistent. Therefore, the usual social distancing measures will not apply from the autumn term 2020 on dedicated transport; • Students will be asked to sit within their year bubbles on the bus. • Hand sanitiser is used upon boarding and/or disembarking transport; • Assurances have been given by transport providers that transport is cleaned regularly and that high touch points are sanitised prior to a school pick up/drop off; • Where possible social distancing within vehicles will be maintained; • Pupils will be required to wear facemasks on public transport • School have been assured that transport providers, as far as possible, follow hygiene rules and try to keep distance from passengers;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • School have been assured that drivers have been instructed that they must not undertake duties for school if they or a member of their household are displaying any symptoms of coronavirus; • Staff to wear appropriate PPE such as a fluid resistant disposable face mask when supporting pupils with complex needs who require assistance to access the vehicle or fasten seatbelts; Immediately after assisting pupils, staff will wash their hands thoroughly with warm running water and hand soap for at least 20 seconds.
Spread of Covid-19 during travel to and from school on public transport	Staff, pupils, household members, members of the public	Potential spread of infectious disease Pupils stranded or missing	<ul style="list-style-type: none"> • Staff and pupils are encouraged to walk or cycle to school where possible; • Where this is not possible, use of private transport or a dedicated school bus is recommended; • If public transport has to be used, staff, parents and pupils are advised to follow social distancing rules and to wear a face covering when on public transport; • Families who use public transport have been referred to <u>safer travel guidance for passengers</u> which includes guidance on how to wear a face covering. • Staff, parents and pupils are encouraged not to share a vehicle with those outside their household or support bubble.
Spread of Covid-19 when arriving at school	Staff, pupils, household members, members of the public	Potential spread of infectious disease Pupils stranded or missing	<ul style="list-style-type: none"> • Parents/carers are requested not to enter school unless absolutely necessary and by appointment only. When it is necessary for a parent/carer to enter the school building they will be instructed to follow sanitising and social distancing guidelines and asked to wear a face covering in internal communal areas;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • Pupils have been instructed not to touch the front of their face covering during use or when removing them on arrival at school; • Reusable face coverings must be placed in a plastic bag that the wearer has brought with them and stowed in a safe place such as a school bag to be taken home; • Those removing face coverings are required to wash or sanitise their hands immediately after removing it; • The contents of the bin will be disposed of as normal domestic waste unless the wearer has symptoms of Covid-19 in which case it will be disposed of in line with the guidance on cleaning for non-healthcare settings; • All staff and pupils wash their hands thoroughly with warm, running water and hand soap for at least 20 seconds on arrival at school, or use hand sanitiser provided;
Transmission of Covid-19 through insufficient personal hygiene	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • Good hand hygiene and the need to wash hands/ sanitise hands more frequently is promoted around school; • Staff, pupils and visitors are instructed to wash hands/ sanitise hands when they arrive at school, when they return from breaks, when they change rooms, before and after eating, after using the bathroom, after touching shared resources or after touching their face, blowing their nose, sneezing, coughing; • Hand washing/sanitising facilities are readily available. Hand sanitiser stations have been positioned at every entry point, every classroom and every dining room to allow pupils and staff to clean their hands regularly; • Where necessary pupils are supervised and monitored to ensure safe and appropriate hand hygiene;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • Pupils are encouraged to avoid touching their faces whenever possible particularly with unwashed hands; • The Catch it, Bin it, Kill it guidance is promoted to catch coughs and sneezes in tissues and throw them in the bin immediately (hands to be washed/sanitised immediately after disposal); • Pupils are reminded how to catch coughs and sneezes if a tissue is not readily available i.e. in the crook of the elbow rather than in the hands; • Posters are displayed on good hand washing technique and government guidelines on good respiratory hygiene; • Tissues are readily available around school including in all classrooms and sufficient numbers of bins are in place for the disposal of tissues. • The 'hands, face, space' message is promoted to all staff and pupils.
Spread of COVID-19 virus via germs on surfaces and furniture within the building	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • Staff and pupils can take books home. Staff should sanitise hands and surfaces before and after handling pupils' books. In line with the current union guidance, written work that is to be marked by the teacher after the end of the lesson will need to be quarantined for a minimum of 48 hours. After this time period has passed, the work may be collected by the teacher for marking. Marked work must then be quarantined for a further 48 hours before being handed back to the student. • An enhanced cleaning schedule is followed which includes; • A dedicated member of staff will supervise and clean staff and student toilets. • Additional cleaning will take place if specialist equipment needs to be used to ensure all items are sanitised. • Additional cleaning in all areas will take place. All rooms will be fully cleaned after use by the cleaning staff.

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:			
List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • After each sitting, dining room tables will be fully cleaned and sanitised ready for next bubble of students. • After each sitting, the water filters will be fully cleaned and sanitised. • When cleaning, the usual products i.e. detergents and bleach will be used as these are effective at getting rid of the virus on surfaces; • Staff have been instructed on cleaning and sanitising requirements including the use of chemicals and cleaning materials and instructions on the use of PPE; • PPE is provided for staff to wear during cleaning activities and must be worn as instructed e.g. gloves etc.; • COSHH risk assessments are in place and followed for cleaning products and have been shared with staff as necessary; • A documented cleaning checklist is in place to ensure the enhanced cleaning schedule is followed and maintained; • For individual and very frequently used equipment, such as pencils and pens, staff are instructed to have their own items that are not shared, pupils will be given individual plastic folders with equipment for their use solely; • Resources that are shared between classes or bubbles, such as sports, art, and science equipment are cleaned frequently and meticulously between bubbles; • Pupils are only allowed to bring essentials into school each day including school bag, lunch boxes, hats, coats, books, stationery and mobile phones; • Waste bins are emptied at least daily or more often as necessary and the contents disposed of safely;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:			
List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> Contaminated or suspected contaminated waste will be double bagged, labelled and stored for 72 hours before being disposed of with general waste; Waste cleaning materials are disposed of in the usual way unless it is confirmed or suspected that they are contaminated as a result of a member of staff or pupil displaying symptoms; Staff have been instructed to store personal items and clothing in areas not widely accessible during the working day e.g. in lockers.
Transmission of Covid-19 through airborne particles due to interaction with a large number of other pupils	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> Following an assessment of the school circumstances and the practical logistics, pupils have been placed in 'year group' bubbles to enable the school to offer a full curriculum. Interaction between other year groups is minimised as far as is reasonably practicable; Classrooms are not shared with other class groups; Measures have been put in place to limit interaction, between groups (bubbles) as much as possible; School finish times are staggered to keep groups apart as they leave; Children in different groups are encouraged not to socialise at break times. Year group areas have been organised for break times to ensure students keep within their year bubbles. Classroom selection and timetabling have been carefully managed to reduce movement around the building and to prevent mixing of different groups of pupils; Pupils in different groups are encouraged not to mix together at break times and groups are supervised and kept apart as far as possible; Different groups in the dining area will be kept apart as much as possible;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:			
List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • As far as practicable groups will be kept apart with only brief transitory contact where this is unavoidable; • Large gatherings such as assemblies or collective worship with more than one year group bubble should be avoided; • Pupils are kept in consistent groups during P.E and outdoor sports are prioritised where possible; • When indoor sport is unavoidable, scrupulous attention is given to cleaning and hygiene;
Transmission of Covid-19 through airborne particles due to close proximity to others			<ul style="list-style-type: none"> • Wearing of Face Masks – following Government guidance, pupils will be required to wear masks (unless medically unsafe to do so) when entering the indoor school premises, moving on corridors to lessons, break, lunch and on leaving the indoor school premises. • Masks should either be plain black or of the disposable ‘blue medical’ type. Pupils should also have a sealable clear plastic bag to store the masks in when not in use. • Pupils should hand sanitise or wash hands for 20 seconds after handling the mask. • Staff will be provided with visors to wear when in those same circulation areas and on indoor duties. • At the end of lessons when staff know that pupils are going to move, then they should instruct the pupils to put on their masks. • Teaching staff take active steps to maintain a distance greater than 1m from their pupils at all times including staying at the front of the class, limiting face to face contact and minimising the time spent within 1 metre distance of anyone; • All staff and pupils are expected to adhere to the current social distancing guidelines as far as is reasonably practicable;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • The school has been separated into year zone bubbles. As far as is practically possible students should remain in their year bubbles. • Classrooms have been adapted to support social distancing where possible including: seating pupils side by side and facing forwards, rather than face to face or side on; moving unnecessary furniture out of classrooms to make more space; • Year 7-9 each pupil will have a dedicated desk. Where possible they will stay in this seat for every lesson. Each pupil will be given their own resource pack. • Year 10 & 11 students will be stay within their year group bubble area but will move within the bubble classrooms for option subjects. They will also use other specific specialist rooms to facilitate the normal GCSE timetable. • As much as possible, fresh air is increased within buildings by opening windows and doors frequently to encourage ventilation, taking account of any potential security or fire safety issues;
Transmission of Covid-19 through airborne particles due to singing, chanting, playing wind or brass instruments or shouting.	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • Singing, and playing wind and brass instruments will not take place in larger groups; • During music lessons or clubs involving singing, shouting or the playing of wind and brass instruments group sizes will be restricted to 15; • Instruments will not be shared where at all possible, where this is not possible frequent cleaning of instruments between use will take place;
Transmission of Covid-19 staff work areas	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • The occupancy of the school office and PPE rooms is restricted to ensure social distancing rules can be observed;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • Shared work areas are avoided. Where this is not possible work areas are thoroughly sanitised before and after use by different people; • Sanitising wipes are available to enable shared desks and equipment to be cleaned before and after use, staff are reminded of this requirement regularly; • Measures have been put in place to protect office staff when dealing with contractors, parents and visitors. A perspex screen separates the office staff from visitors.
Transmission of Covid-19 staff rest areas	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • Additional space for breaks has been created for staff by using other parts of the school such as department offices; • The number of staff allowed in the staff room at any one time has been restricted 6 to enable social distancing to be maintained; • Staff room furniture has been removed to maintain social distancing and reduce face to face contact. • Staff are encouraged to bring their own food to work. Staff are encouraged not to purchase food off site to prevent possible transmission of the COVID-19 virus through contact with other people and/or contaminated surfaces.
Transmission of Covid-19 through airborne particles due to face-face meetings	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • Meetings to be held via remote working tools wherever possible; • Only when absolutely necessary will a face to face meeting take place. This will be with the minimum number of participants, whilst observing social distancing rules either in an outdoor space or well-ventilated area indoors; • Hand sanitiser is provided in designated meeting rooms where handwashing facilities are not immediately available; • Disinfectant wipes are available in designated meeting rooms to enable staff to wipe down shared equipment before and after use;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
Need for Personal Protective Equipment (PPE)	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • Staff are aware of the need to use the appropriate PPE when completing specific tasks e.g. cleaning or supporting an individual with coronavirus symptoms; • Disposable gloves are worn during normal cleaning regimes. Disposable gloves and impermeable aprons must be worn when cleaning areas that have been occupied by someone displaying symptoms of COVID-19; • When caring for someone with symptoms of COVID-19 a face mask should be worn if a distance of 2 metres cannot be maintained and if contact is necessary, gloves, an apron and a face mask should be worn. • If a risk assessment determines that there is a risk of splashing to the eyes, e.g. from coughing, spitting, or vomiting, eye protection will also be worn by the supervising adult. • Staff and pupils are instructed on the need to wear a face covering by law on public transport and have been given guidance on wearing and making face coverings; • Staff are provided with information and instruction on the use and disposal of PPE including face masks; • Further guidance is available on safe working in education, childcare and children's social care .
Dealing with emergency situations including accidents, security and evacuation during the COVID-19 pandemic	All building occupants	Untreated injuries, potential spread of infectious disease	<ul style="list-style-type: none"> • In an emergency, e.g. an accident or fire, people do not have to stay 2m apart if it would be unsafe but should do so where this is possible; • First Aiders are aware of and follow the Government guidance for first responders; • The First Aid Needs Assessment has been reviewed and amended to take account of current occupancy, numbers of first aiders required and additional PPE needed during the COVID-19 pandemic including provision of disposal gloves, disposal plastic aprons, fluid repellent surgical face masks and visors as required;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • Pupils who require first aid will continue to receive care in the same way; No additional PPE is needed because of COVID-19 for any pupil who does not have symptoms; • When administering first aid to an adult, a face mask should be worn if a distance of 2 metres cannot be maintained. If direct contact is necessary, gloves, an apron and a face mask should be worn; • If a risk assessment determines that there is a risk of splashing to the eyes, e.g. from coughing or vomiting, eye protection will also be worn by the first aider; • Staff involved in the provision of assistance to others in an emergency including first aid are instructed to pay particular attention to sanitation measures immediately afterwards including washing hands for 20 seconds under warm, running water or using hand sanitiser; • For instances where first aid qualifications are due for renewal and may expire during the current crisis i.e. due for renewal on or after 16 March 2020, the HSE had granted a 3-month extension. School will endeavour to provide training ASAP but is aware that if this is not possible a further extension may be granted to no later than 30 September 2020 subject to evidence to support the reason why it has not been possible to arrange training.
Reduced premises inspections, tests, servicing and maintenance	All building occupants	Accidents or incidents resulting from poorly maintained premises & plant	<ul style="list-style-type: none"> • Premises management inspections, testing and servicing of plant, equipment, etc. have been brought up to date for all parts of the building from September 2020 onwards; • Records of all testing and checks are stored and available to all interested parties.
Transmission of Covid-19 through airborne particles from customers, visitors	Staff, pupils, visitors, contractors, household members	Potential spread of infectious disease	<ul style="list-style-type: none"> • Visitors to site including contractors, parents and visitors are limited to essential persons only and wherever possible by appointment only;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
and contractors accessing the building			<ul style="list-style-type: none"> • Supply teachers, peripatetic teachers and/or other temporary staff are permitted and can move between schools; • They will be instructed to ensure they minimise contact and maintain as much distance as possible from other staff. • Specialists, therapists, clinicians and other support staff for pupils with SEND will provide interventions as usual; • All visitors and contractors will follow the Government's guidance and the school's strict hygiene and social distancing rules e.g. hand washing/sanitisation upon entry; • Reception staff responsibilities have been established in relation to COVID-19 and the communication of procedures required by contractors and visitors to site; • Office staff are aware of and explain additional hygiene and social distancing rules required by contractors and visitors on arrival; • Signing in/out arrangements for visitors have been modified to prevent the handling of pens and paper by multiple people. A record of all visitors is kept in the event this may be required for track and trace purposes; • Contractors must obtain permission before attending site; • When necessary, contractors to familiarise themselves with the asbestos survey for the building prior to works commencing – this can be downloaded from the PAM system. Alternatively, the executive summary to be provided as a laminate which must be wiped clean with disinfectant wipes after use; • Contractors will wear appropriate PPE as determined by their employer, however they may be asked to wear additional PPE (provided by the school) upon arrival e.g. gloves, mask, coveralls, shoe covers, etc. where this is considered necessary. Contractors will comply with any additional PPE or hygiene requirements made by the school prior to entry;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:			
List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> Contractors will be asked to keep the time spent on site to a minimum and will make all efforts to only attend site to carry out work during periods of reduced occupation; Alternative routes around or through the premises will be used as instructed by the school e.g. the school may usher the contractor through a fire escape door to access an adjacent room, rather than walking them through the school to reach their destination; The number of site deliveries has been reduced where possible; Staff handling deliveries will observe good hand hygiene, washing hands using warm, running water and soap for a minimum of 20 seconds or using hand sanitiser after handling new deliveries that have not been sanitised.
Stress and Anxiety	Staff	Increased levels of stress/anxiety and lower than normal levels of wellbeing	<ul style="list-style-type: none"> SLT monitor working arrangements and offer support and advice where necessary; Staff are able to contact colleagues or SLT for advice and support, or just for reassurance, during the normal working day; A process is available for individuals to report concerns over breaches of school safe working policy/guidelines so that intervention can occur; Where a member of staff returning to the workplace has raised concerns about their safety or wellbeing due to the risk of COVID-19, where necessary their line manager will complete a risk assessment addressing COVID-19 concerns for an employee to help identify key concerns and any further adjustments required to support them at work; Staff are made aware of sources of information that will assist staff wellbeing such as: <ul style="list-style-type: none"> Employee Wellbeing MIND web site H&S COVID-19 web page

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:			
List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> The Department for Education is providing additional support for both pupil and staff wellbeing in the current situation. Information about the extra mental health support for pupils and teachers is available; The Education Support Partnership provides a free helpline for school staff and targeted support for mental health and wellbeing.

This general risk assessment will apply to this area/task/activity in most schools providing the control measures described are in operation and there are no further local significant hazards. If it does not fully apply and further control measures are required, please complete the Action Plan at Part C. If it fully applies please sign below.

I certify that the risk assessment above fully applies to the area/task/activity under assessment in (Name of school)
